### Alpha

- Five oil discharge recovery teams coordinated and monitored responsible party led operations in Island Moorings, Rattle Snake Point, Ingleside, Seadrift, Harbor of Refuge, and Holiday Beach.
- An inventory of 113 recovered items was completed on the staging pad preparation for field screening.

### Bravo

- Air quality specialist deployed (Valero Houston Refinery)
  - o Detected benzene outside of the facility

### Charlie

- Discharge assessment team report 125 gallons of diesel fuel was discharged

Beaumont is still above flood stage

No PIO onsite

NO safety onsite

### Finance

- \$25,000/day
- Will be provided in today's burn rate numbers

No water onsite

Dave – will we need to start ramping down certain parts of the field?

- Evaluating our resources and those needs
- Houston is ramping down, Beaumont is ramping up
